

## Asset Tracker WIRED WAT02-6

The WAT02-6 weatherproof asset and trailer tracker is designed for reliable, long-term deployments. Its rechargeable battery pack makes it an ideal solution for managing assets that are typically powered or have their own power source available, and only sit disconnected for short periods of time. Track trailers, cranes, excavators, generators, lawn equipment, and more.

### Key Hardware Features

- Get very frequent asset tracking capabilities; anywhere from 1 ping per week to every 30 sec.
- Configurable reporting intervals.
- Superior internal antennas make it mountable virtually anywhere in the vehicle.
- Lasts up to 6 months without supplied power.
- Can be configured to report on motion, time intervals, ignition, or various inputs.
- Rugged, sleek, weather resistant design.
- Wireless sensors available for temperature and coldchain monitoring
- Fully integrated into Geotab.

### Product Specs

#### DIMENSIONS

4.5x3.2x1.6" (114x80x39in)

#### WEIGHT

8.11 oz. (230g)

#### Estimated Battery Life

Up to 6 months at 1 report per day (rechargeable)

#### Inputs/Outputs Available

Ignition Input: fixed bias

Analog Input 1 External ADC Input

Digital Inputs 2: high/low bias selectable 0-30 VDC

Digital Outputs 3: open collector relay 150mAIP/

#### Ingress Rating

IP-66

#### Network connectivity

LTE Cat-1 (HSPA/ UMTS fallback)

#### BANDS

B1, B2, B3, B4, B5, B8, B12, B13, B18, B19, B20, B25, B28, B39
