

Asset Tracker Wired WAT01-6

The WAT01-6 is an extremely versatile & rugged 4G LTE tracking device. With this asset tracker, operations managers monitor the location and status of vehicles, heavy machinery and other mobile assets. The WAT01-6 connects multiple sensors for monitoring key conditions like operating temperature and vehicle speed. Multiple outputs are utilized for external device or vehicle system control. Additionally, Cat. M1 & NB1 capabilities keep data cost low and offers increased performance indoors.

Key Hardware Features

- Backup Battery: 4300mAh, with low battery warning and disconnect alert system.
- Tracking: Sends real-time vehicle location and speed.
- Programmable Alerts: Customizable geofencing, over speed limit, high / low temperature ranges, device movement and more.
- 3-Axis Accelerometer: Detects trip start / end, acceleration and impact upon collision.
- Message Store and Forward: Up to 300 messages or alerts.
- Deep Sleep Power Saving Mode: Ultra low consumption when vehicle engine is off or device is at rest.
- Monitor & Control: Multiple I/O connections suit a variety of needs.
- OTA (Over the Air): Firmware can be upgraded via TCP.
- Weatherproof: IP65 rated outer casing.
- Fully integrated into Geotab.

Product Specs

DIMENSIONS

105*65(75) *26 mm, 4.13" x 2.56(2.95)" x 1.02"

OPERATING TEMPERATURE

-20°C to +65°C

BATTERY

4,300mAh

ALERTS/SENSORS

Built-In 3-Axis Accelerometer

IP/Ingress Rating

IP-66

Mounting/INSTALL OPTIONS

Magnet/Zip-tie/Screws

Network connectivity

BANDS

B1, B2, B3, B4, B5, B8, B12, B13, B18, B19, B20, B25, B28, B39
