

Fleet compliance

Strengthen compliance to regulations.

Smart solutions to simplify compliance management and minimize violations.

- + Electronic logging (ELD)
- + Driver Vehicle Inspection Reports
- + IFTA Fuel tax reporting

An easier way to manage compliance

Hours of Service and ELD compliance

Strengthen ELD compliance, safety and much more with Geotab Drive. Geotab's electronic logging solution has driver-friendly features including automatic duty status changes and pop-up reminders.

Gain peace of mind

Compliance administrators can access detailed reports on driver logs and remaining hours, anytime, anywhere, right from MyGeotab. Get a comprehensive view of availability and recaps.

Simplify vehicle inspections

Drivers can complete pre-trip and post-trip inspections right from their smartphone or tablet. Attach pictures and remarks to inspection reports. Automatically notify the mechanic when a DVIR is complete and a repair is needed

International Fuel Tax Agreement (IFTA)

Save time and improve accuracy of IFTA fuel tax reporting with telematics. Track miles by state or province for each fleet vehicle and get accurate entry and exit odometer readings.
